

(e) *Other non-consumption entries.* Import licenses are not required on temporary importation bond (TIB) entries, transportation and exportation (T&E) entries or entries into a bonded warehouse. Covered steel products withdrawn for consumption from a bonded warehouse will require a license at the entry summary.

§ 360.102 Online registration.

(a) *In general.* (1) Any importer, importing company, customs broker or importer's agent with a U.S. street address may register and obtain the user identification number necessary to log on to the automatic steel import license issuance system. Foreign companies may obtain a user identification number if they have a U.S. address through which they may be reached; P.O. boxes will not be accepted. A user identification number will be issued within two business days. Companies will be able to register online through the SIMA system Web site. However, should a company prefer to apply for a user identification number non-electronically, a phone/fax option will be available at Commerce during regular business hours.

(2) This user identification number will be required in order to log on to the steel import license issuance system. A single user identification number will be issued to an importer, customs broker or importer's agent. Operating units within the company (*e.g.*, individual branches, divisions or employees) will all use the same basic company user identification code but can supply suffixes to identify the branches. The steel import license issuance system will be designed to allow multiple users of a single identification number from different locations within the company to enter information simultaneously.

(b) *Information required to obtain a user identification number.* In order to obtain a user identification number, the importer, importing company, customs broker or importer's agent will be required to provide general information. This information will include: the filer company name, employer identification number (EIN) or Customs ID number (where no EIN is available), U.S. street address, phone number, con-

tact information and e-mail address for both the company headquarters and any branch offices that will be applying for steel licenses. It is the responsibility of the applicant to keep the information up-to-date. This information will not be released by Commerce, except as required by U.S. law.

§ 360.103 Automatic issuance of import licenses.

(a) *In general.* Steel import licenses will be issued to registered importers, customs brokers or their agents through an automatic steel import licensing system. The licenses will be issued automatically after the completion of the form.

(b) *Customs entry number.* Filers are not required to report a Customs entry number to obtain an import license but are encouraged to do so if the Customs entry number is known at the time of filing for the license.

(c) *Information required to obtain an import license.* (1) The following information is required to be reported in order to obtain an import license (if using the automatic licensing system, some of this information will be provided automatically from information submitted as part of the registration process):

- (i) Filer company name and address;
- (ii) Filer contact name, phone number, fax number and email address;
- (iii) Entry type (*i.e.*, Consumption, FTZ)
- (iv) Importer name;
- (v) Exporter name;
- (vi) Manufacturer name (filer may state "unknown");
- (vii) Country of origin;
- (viii) Country of exportation;
- (ix) Expected date of export;
- (x) Expected date of import;
- (xi) Expected port of entry;
- (xii) Current HTS number (from Chapters 72 or 73);
- (xiii) Quantity (in kilograms) and
- (xiv) Customs value (U.S. \$).

(2) Certain fields will be automatically filled out by the automatic license system based on information submitted by the filer (*e.g.*, product category, unit value). Filers should review these fields to help confirm the accuracy of the submitted data.
